

ToHiRe TRADING MOROCCO SARL

Short name: THR

Turning Waste into Worth

Headquarters	Casablanca, Morocco
Founded	2024
Legal form / Capital	SARL / 20,000 MAD
What we do	We connect reliable suppliers and buyers of recyclables worldwide and handle the logistics in between.
Focus	Wastepaper sourcing & export (HS 4707).

Mission: Make cross-border recycling trade simple, transparent and dependable for Africa.

Vision: Be North Africa's most trusted wastepaper sourcing hub linking local collectors to global mills.

Core Values

Reliability — every shipment, every time.

Transparency — clear grades, specs and documentation.

Speed with care — fast execution without quality compromise.

Partnership — long-term wins for suppliers and mills.

Sustainability — trading that reduces landfill and emissions.

Focus Grades (EN 643)

1.05 — Old Corrugated Containers (OCC)

- Recovered corrugated packaging (boxes) from retail and industry.
- Free from non-paper components as far as practicable; keep plastic, metal and glass to a minimum.
- Exclude wet-strength, waxed/bituminised papers and food residues.
- Typical sources: supermarkets, distribution centers, factories.
- Export notes: dense bales; photo set during loading available.
- Moisture and tolerances per contract (typical export target $\leq 12\%$ moisture).

2.05 — Sorted Office Paper (SOP)

- Sorted office paper, mainly woodfree uncoated; printed or unprinted.
- Low colored content; avoid self-copying/thermal/carbon papers.
- Exclude envelopes with plastic windows where possible; remove clips/spirals.
- Typical sources: offices, archives, print houses.
- Ideal for high-quality deinking lines.

1.02 — Mixed Paper & Board (Sorted)

- Mixture of papers and boards from separate collection (household/commercial).
- May contain newspapers, magazines, packaging, and office papers.
- Keep non-paper components to a minimum; exclude food waste and sanitary grades.
- Typical use: board mills tolerant of mixed furnish.

4.01 — New Corrugated Cuttings (NCC)

- Unused new corrugated cuttings and trimmings from box plants.
- Mainly kraftliner/testliner with fluting; clean, dry and free of print varnish where possible.
- Allows glued seams and labels typical of converting.
- Preferred by mills for predictable fiber quality.

Supply Chain Flow

Operations & Logistics

Origins: Morocco and wider Africa via local collection partners.

Ports: Casablanca and Tanger Med; other African gateways on request.

Incoterms: EXW, FOB, CFR.

Compliance: international customs and product standards with correct HS codes and labelling.

Quality & Sustainability

Load inspection during stuffing; photo evidence available.

Optional third-party tests per customer request.

We operate in line with ISO 9001 (quality) and ISO 14001 (environmental) principles.

Commercial Terms

Payment	CAD — Cash Against Documents.
Documentation	Commercial invoice, packing list, BL and inspection photos; other certificates on request.
Returns/Warranty	By mutual agreement per contract and grade specification.
